

NITIDA

HANDMADE IS AN ATTITUDE

Situated in the heart of the Durbanville Wine Valley you will find our family-owned and operated wine cellar. Although not intentionally award-driven, there is no denying the status of our Wine of Origin Cape Town, boutique wines.

We appreciate networking with new people to encourage direct sales from the farm, as this is where you can really experience what the Nitida family has to offer.

For us, being handmade is more than just a physical process and approach, it is about perfecting the small details along the way while treating each batch of juice with respect throughout its journey from the vine to Nitida wines.
Nitida embodies devotion, passion and aspiration.
